ACAVE and Beroni present a new platform for the creation, management and signing of combined travel contracts

- This new platform will save time and offer agencies a useful tool for agencies not only to process but also to automatically and digitally store the documentation of all trips.
- The presentation of the tool will take place this coming Friday, January 14 at 10 am, in a webinar format exclusively for ACAVe associates and it will also be presented at FITUR for the entire sector.

January 12th, 2022.- The Corporate Association of Specialized Travel Agencies (ACAVe), the main employer in the sector in Spain and which represents the interests of Spanish travel agencies in ECTAA, and Beroni, a leading technology company in the agency sector agencies, will present the **BGS Sign Contract** platform that has been developed by Beroni with ACAVe's legal advice to the associated travel agencies next Friday.

BGS Sign Contract allows travel agencies to create, fill in, sign, manage and store combined travel contracts in an easy and agile way. The automation of these procedures means a great reduction of paperwork and procedures for travel agencies organizing and selling package tours, required by law to process a package travel contract for each new trip that their clients hire. This platform represents an important advance for the digitization process of travel agencies.

This platform has been developed by BERONI, counting on the advice of ACAVe in the practical questions of application of the contract. Likewise, the models of package travel contracts included in the platform have been drawn up by **ACAVe's legal advice**, an expert in this matter.

The new platform will be available to all travel agencies, although ACAVE associates will have special rates for hiring them.

Beroni will also participate in the ACAVe stand at Fitur, 10F04, where he will present to all interested travel agencies the important advantages of this platform.
